

Version 1.0

Information Security Policy

(Doc. No: PL.IS-v01)

We at ISC IT Services (P) Ltd recognize that Information Security is the responsibility of each and every one of us in the organization. We are committed to creating a secure ecosystem that will enable us to - protect customers' and our information, data, intellectual properties, assets and fulfill our security obligations by implementing the '**Information Security Management System**'.

We shall achieve this by ensuring:

- Maintaining Confidentiality, Integrity, Availability of information within the organization
- Fulfilling Regulatory, Legal and Statutory compliance requirements, Intellectual property rights, Data protection and privacy obligations.
- Ensuring all personnel are trained in information security and their roles and responsibilities towards information security management.
- Ensuring the organization and its personnel are committed to protection of the organization's information assets from all threats, whether internal or external, deliberate or accidental in nature.
- Ensuring Business Continuity plans [BCP] are established, maintained, and tested to mitigate the organization's continuity and resilience risks. Processes are designed to support continuation of business operations with minimal disruptions.
